

A Case for Support

Organizational Sponsor Opportunities

Living Green is a small organization with a BIG mission. We receive no ongoing government financial support and are only able to keep programs and projects going through the support of businesses like yours.

**We are in a climate crisis
and we need action now**

**We can help YOU to become a
local environmental champion**

**We have a plan and you
can be part of the solution**

Your sponsorship fuels Living Green's mission to create a greener, healthier future while showcasing your business as a leader in sustainability. By partnering with us, you sustain vital programs, expand our reach, and align your brand with environmental stewardship. Your support enhances community goodwill, boosts visibility, and reinforces your commitment to a sustainable legacy. Together, we can shape a brighter, eco-conscious future.

**Do you want to see Barrie have a strong environmental voice ?
Please support our work:**
